

FOUGERES YB/ OH

Sunday 9th September: The birds have been liberated at 7.45am with a very, very light SE at Fougères. As they progress up the peninsula the wind is turning South then South Westerly. The channel shows West South Westerly winds, with it becoming more South Westerly when they reach the mainland and up through the UK.

Good luck to you all.

Please remember if you have sent young birds and old hens, you must verify your first arrival for young birds and your first arrival for old hens.
